INTERN ARMY
SINCE 2023

COMPLETE ANY 3 TASKS OF YOUR CHOICE

01 URL SHORTENING LANDING PAGE

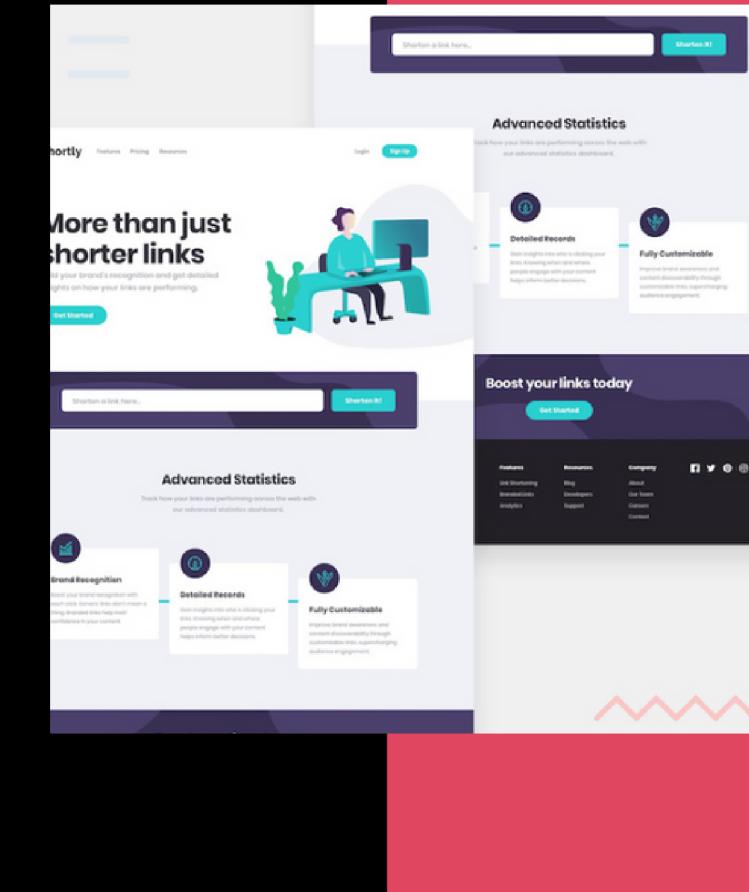

URL Shortening Landing Page

This challenge will give you a taste of using an API to retrieve data. To create a fully functional URL shortener, you'll be integrating with the rel.in API.

- **Learning Outcome:** Learn how to send HTTP requests and integrate with a third-party API. This project could also be a good way to get your feet wet with JS libraries/frameworks like React or Vue. Also, if the user refreshes their browser, try using local Storage to save the list of shortened links.

Skills Required: HTML, CSS, JS, API

Difficulty Level: Beginner

03

TASK TRACKER

Develop a simple task management tool with features like adding tasks, marking them as complete, and possibly categorizing them.

04 WEATHER INFORMATION APP

DESCRIPTION:

Build a web page that displays weather information based on user input using HTML, CSS, JavaScript, and API integration.

Question 1 of 3

How to write an IF statemente in JavaScript?

if i==5 then

if(i==5)

if i= 5

if i = 5 then

Next

05

QUIZ APP

- **Learning Outcomes:** It can be difficult to figure out how to put what you've learned into practise and choose a project that fits your skill set when you first start learning JavaScript. Starting with a simple quiz game is a great way to get started. You'll be dealing with a lot of abstract logic, and it'll be up to you to control and/or expand the quiz difficulty range. Assign correct answers to each of them.
- **Skills Required:** HTML, CSS, JavaScript
- **Difficulty Level:** Intermediate
